---

<sup>1</sup> Students who are eligible for the Youth Mobility Visa or who are an EU citizen should apply at least 3 months prior to the desired starting date. All other students should apply for an internship at least 5-6 months prior to the desired starting date.

## Internship Engineering (Germany)

Wellmann Engineering, based in Halle (Westphalia)/ Germany, is a medium-sized family business with more than 140 employees at 7 locations. We develop process -related solutions in plant engineering for liquid products and combine our expertise from engineering, automation and assembly.

Your internship during your studies is coming up and you would like to get the chance to do it abroad at a place where you can put your theoretical knowledge into practice together with an awesome team? Then we are the right place for you. During your internship, you will actively work on projects and thus gain a deep technical and structural insight into your chosen field and our company. During the whole time, you will have a mentor at your side so that we can provide you with optimal support. We are sure you will feel comfortable in our supportive and family work atmosphere.

We offer internships in the following areas / courses of study:

Process Engineering

Mechanical Engineering

Industrial Engineering

Automation

The duration of the internship is flexible, according to your wishes. We recommend a duration of 3 months or more for the best possible experience.

Are you interested in joining us or do you have any further questions? Then we look forward to hearing from you! Send your application with the required internship information to our contact person Anne Wellmann at [bewerbung@wellmann.eu](mailto:bewerbung@wellmann.eu)

You can find more information about Wellmann at [www.wellmann.eu](http://www.wellmann.eu)

We are looking forward to meeting you!
